

Christina Schmidt, working at JP
Accountancy and Taxation in Harrow:

"My first day at JP Accountancy and Taxation was awesome! My supervisor Donna is very friendly and so are my other colleagues. From the beginning I had real work to do and was treated like the others. I share my current case with Donna and I had to look at my client's income and expenses. I filed these into different categories and after that I compared them with the receipts the client had sent.

Today is my birthday! And I've got the best present ever! My supervisor's colleague has offered me a job, working for them - not just as an intern! He said that I would fit perfectly in their team."
